Massachusetts General Hospital Cardiovascular and Autopsy Pathologist

BOSTON, MASSACHUSETTS (USA). The Division of Anatomic & Molecular Pathology in the Pathology Service at the Massachusetts General Hospital, a major teaching affiliate of the Harvard Medical School, is seeking a Board-certified/board-eligible pathologist to join an outstanding academic team of pathologists. We are searching for candidates with both surgical cardiovascular pathology and autopsy pathology experience. In addition to having training in cardiovascular pathology and autopsy pathology, prior training in other pathology subspecialties, or the desire to obtain such training, will be considered.

In addition to demonstrating expertise in diagnostic surgical cardiovascular pathology and autopsy pathology, the candidates are expected to be committed to the education of residents and fellows, and develop a successful academic track record. There are considerable opportunities for both clinical/translational and basic science research within the Department, the institution, and the Harvard system. Academic rank and salary will be commensurate with experience and accomplishments.

Please send curriculum vitae and names and addresses of four references to:

Dr. Vania Nosé
Director of Anatomic and Molecular Pathology
Department of Pathology
Massachusetts General Hospital
55 Fruit Street, WRN 2
