

ASIP / SCVP Joint Session at Experimental Biology 2019

**Immune Checkpoints: From Basic Immunology
to Cardiovascular Complications
Tuesday Morning, April 9, 2019**

Chairs: James R. Stone, Massachusetts General Hospital
Jonathan Homeister, University of North Carolina at Chapel Hill

8:30-9:00: Richard N. Mitchell, MD, PhD (ASIP Member)

Brigham and Women's Hospital and Harvard Medical School

Myocardium and Inflammation Don't Mix: From Myocarditis to Immune Checkpoint Blockade

9:00-9:40: Gordon J. Freeman, Ph.D.

Dana-Farber Cancer Institute and Harvard Medical School

PD-1 cancer immunotherapy

9:40-10:10: Andrew H. Lichtman, M.D., Ph.D. (ASIP Member)

Brigham and Women's Hospital and Harvard Medical School

Regulation and deregulation of T cells in the myocardium

10:10-10:50: Javid Moslehi, M.D.

Vanderbilt School of Medicine

Immune checkpoint inhibitors-associated myocarditis: Defining a new clinical syndrome

10:50-11:30: Cornelia M. Weyand, M.D., Ph.D.

Stanford University, School of Medicine

Immune Checkpoint Deficiency in Large Vessel Vasculitis
