

What: The Society for Cardiovascular Pathology's Open Mic(roscope) Night
When: Saturday Evening, March 4, 2017 6:00 pm
Where: The University of Texas at San Antonio - Buena Vista St. Bldg 1.328

Agenda: 6:00 pm – 6:15 pm Socializing & Introduction
 6:15 pm – 6:45 pm Young Investigator Presentations
 7:00 pm – 8:30 pm Open Mic(roscope) time!

Note: *What is Open Mic(roscope) Night?*

Do you have a fun, tough, or interesting case that you've always wanted to share? This is your night. All SCVP members are encouraged to bring along a case for Open Mic Night. The case should consist of no more than 10 PowerPoint/Keynote slides (and include a clinical vignette, gross photos, and photomicrographs) to be presented in 5-10 minutes. Please bring the case on a thumb drive and ensure that these slides do NOT have complex templates, animations, or movies. Members will present cases meant to engender lively debate and banter. Cases need not have a definite answer. The hope is that we can explore fun and difficult areas of practice and learn how we each approach different cases.
